My son like it

My son loves this show! It teaches a lot of good lessons and it's easy for him to understand the pictures in the book are bright and colorful so he likes to pay attention to them he likes to repeat all the words in here all the characters are always happy and cheerful As a person from the 90s it kind of made me laugh a little because they say "let's blaze" and if you were anything like my friends then you would understand exactly what that means and why I was a little concerned when I first heard that LOL butt overall it's a pretty cute show and book he loves the songs he laughs and there's a lot of math problems and really cool questions that help him think outside the box I really like it as a parent because not only is he and if you were anything like my friends then he would understand exactly what that means and why I was a little concerned when I first heard that lol but

overall it's a pretty cute show and there's a lot of math problems and really cool questions that help him think outside the box I really like it as a parent and because not only is he reading and watching a cartoon but it's helping him learn and at least putting that in the back of his little head thanks for reading if my review helped you.please hit the yes button so I know I did a good job

I hate how does one click for purchases. Im currently trying to figure out setting so my 3 year old is charging my card for all of these one click purchases of things she never plays or reads...she purchased this but has zero interest in it

Enjoyed reading together. He can't wait to read again. Now.now now now now now now now now now now now

Awesome book my son loves it, talks about all the race cars and is a fun read, what a fun

Do not waste your money! Worst book ever...only introduces the characters...no story at ALL! So very, very disappointed.
