21 Tips And Tricks To Enhance Your Game Of Golf And Play Like The Pros

Synopsis

Are you ready to consistently break 90? Get ready to shave off strokes from your game in no time when you grab your copy of 21 Tips & Tricks today! Golf is one of the most difficult sports to master. The difference between a successful drive and a ball that drops straight into the pond is just millimeters. Hitting that perfect spot each and every time you're up can take years of practice and dedication, but don't let that deter you from getting "good enough." Being good enough means having a correct understanding of the fundamentals that you can build on in the correct way, and I teach you that in this book. In fact, I'm so confident in this book that I state right in my introduction that if you apply the 21 tips and tricks within this book, your buddies will be buying the Saturday afternoon beer for losing every single weekend. I guarantee it! How's that for bragging rights? Here is a sneak peek of the tricks I'll teach you: My seven pitch shot techniques for nailing every shot My three sand trap escape tricks The golden rule of chip shots The three rules of putting, chipping, and pitching My two best putting drills for mastering the putt game My three golf swing improvement tips Much, much more!

Customer Reviews

If only I had this book the first time I played golf! The book provides tips on improving your swing as well as tricks for the perfect ship in pitch shot. The putting drills were very helpful and I now know how to escape from the dreaded bunker.

And play like a pro? Really? A very short little book with vague "tips" and no actual examples or useful advice. For example, he states that you need to "return to basics" but says nothing at all

about what theses basics are. It is not worth even reading, never mind buying.

I have been golfing for many years and I found a lot of solid tips in this guide. I look forward to practicing the 7, 8, & 9 o'clock positions in the hopes of improving the backspin on pitch shots. Highly recommend.

I recommend this book for all newcomers to the game. The tips are useful.

Handy book good advice worth a read.

basic stuff

There was not anything really new here. A big section was on backpacking which I have no use for. Would not recommend. Save your money.
