in Kindle Store > Kindle Short Reads > 45 minutes (22-32 pages) > Business & Money #28

in Books > Business & Money > Economics > Commerce

Customer Reviews

Not sure if I agree with the title recommendation, it may be against 's TOS. Other points are good to keep in mind. Doesn't explain the difference between feature and benefit.

This author gets to the point as with other books I've read. He doesn't prolong things wasting time and money as I've found with some other. Great information of value for the price.

It's clear useful information for the size of content you get in this book. What's to complain when you

pay the guy less than \$1.00? Thanks Red!

I have been selling on for five years and I can assure this little book is worth reading if you are considering starting or improving your business.

As a newbie I learned the most basics of the listing formula. It was easy to understand. Before I publish my listing I will get advice from other resources. It's a good ebook for beginners.

It is a nice overview. For everyone who wants to look more into the details he/she can take the topics mentioned and look for other lectures. Thanks Red.

quite a nice book

cool
