Climbing Trees At 112: Real Life Inspirations For The Over 65s

Synopsis

These are inspirational, true stories to excite the spirit of anyone contemplating old age with fear, suspicion or apprehension. This is a book about people who did amazing things at a time of life when most people are content to look back on what has already happened in their lives, rather than look forward to what may happen in the future. Some of the individuals in Vernon Coleman's book had already done great things and carried on doing them in their later years. But many had ordinary lives and only blossomed into greatness in their 60s, 70s, 80s, 90s or beyond. Dr Vernon Coleman MB ChB DSc FRSA is a medical doctor who has written over 100 books. His books have sold over two million hardback and paperback copies in the UK alone and have been translated into 25 languages and sold around the world.
