National Geographic Investigates Ancient Rome: Archaeology Unlocks The Secrets Of Rome's Past

Synopsis

At its peak, Roman civilization influenced a vast empire. In all corners of that enormous area, archaeologists have searched for years, looking for clues to the history of the Imperial Romans. Learn about the writing tablets excavated from a Roman fort. Wonder at the fabulous mosaic recently discovered beneath the streets of Italy's capital city. See how ancient artifacts help scientists today piece together the puzzle of Ancient Rome's past. National Geographic supports K-12 educators with ELA Common Core Resources. My son is a Master Cave Diver in Florida, so this book fascinates me, but I think the mysteries of "FINDING HISTORY " is enjoyed by everyone... that is, the 50% of us who bother reading anymore

This series of books is very easy reading for young adults and very interesting for adults. I especially like the time lines in each book. The information covers a long period of time very well.
