Judika Illes is an independent scholar, educator, and author of several books of folklore, folkways, and mythology. Judika is a graduate of Rutgers University and has a certification in therapeutic aromatherapy from the Australasian College of Herbal Studies. Her books include *Encyclopedia of 5,000 Spells*, *Encyclopedia of Spirits*, *The Element Encyclopedia of Witchcraft*, *The Weiser Field Guide to Witches*, and *The Weiser Field Guide to the Paranormal* (published under the name Judith Joyce).

I love Judika Illes, I'm so fond of her books. And this book takes the cake. I've always been into witchcraft, but I found it challenging to find books that accurately related to my feelings about the

subject. Her collection of these books blew me out of the water. I would definitely recommend to any person interested in the subject, intentions good or bad. It gives you a greater understanding of beliefs from around the world. It does not have images no, but, I didn't buy it to look at pictures. Five stars.

I purchased this for my wife. I marked five stars because she is constantly reading this giant encyclopedia. Happy wi(tch)fe, happy life.

This is a fantastic book. The author knows her stuff and I like that she writes with both seriousness and humor. I think some folk were disappointed in the lack of pictures; I was not. The information contained within the book makes up for any lack of pictures. I was looking more for content, and that's what this book is.

Anything I've read by Judika has been absolutely awesome. Very informative for anyone interested in the craft.

Very good information. The author of this book is very straight forward about everything and touches on any and all topics of the craft. Best book I have ever read about the craft.

Excellent information in an easy to read, enjoyable format. I definitely recommend this book.

This book covers a lot of topics but doesn't have a lot of information on each. From what I've seen so far it has anywhere from a few sentences to maybe half a page. I like the information included and the way it's written.

i love it
