Learn To Draw Female Portraits No.1

Synopsis

****Best viewing experience if you have Kindle Fire, Kindle DX, ipad, and big screen Android tablet**** Learn how to draw female portraits 1. In this book, you will learn to draw five different women's faces with in depth instruction. You will also learn to draw from front view, side view and three quarter view. This tutorial is suitable for beginner to intermediate artists. These five portrait lessons will guide you through an easy to follow instruction on how to draw faces. We will be drawing eyes, nose, lips or mouth, eyebrows and all the facial construction. Over the years of being a character concept artist, Xia Taptara has to develop quick and effective way to sketch, draw, and paint variety of facial structures for many character designs as a concept artist. He has captured its essence for you in this easy to follow step by step drawing lessons. This complete package will get you going quickly and will even provide you the right foundation to further develop your artistic skill. If you are new, my tutorial will make a HUGE improvement in your portrait drawing skill. Even if you are good, this tutorial is guaranteed to boost you to the NEXT LEVEL! If you are an ARTIST and looking to IMPROVE, This Tutorial is for YOU!

Customer Reviews

also shows intermediate steps and you can see proportion and structure work. Recommended for good references and workflow .Does not explain actual shading and coloring techniques but this is not in the scope of this work. Provides a few good completed drawings and gives insight on the steps to get there.

I have always loved faces but could not draw them so I downloaded this book to help me and it is full of all kinds of great information I can use.

Not using it, didn't know it was digital, my fault.

I got this book so I could draw faces on some Photoshop characters that I had created. This book gives a good feel for facial characteristics. The author has additional videos on drawing portraits at theartclasses.com including how to draw in Photoshop.

Never thought drawing this difficult subject could be so easy. Just take your time and with a little practice your brain will hard-wire in the basics. You'll be drawing your own beautiful ladies in a short time.

Nice and easy way to do portraits....very helpful to me as an artist. I tend to overwork things, his technique has shorten time spent because I have a better understanding...

very short book and the instruction is non-existent, you can get the same results looking a picture of any of those people.

Not as helpful as I expected but still very useful. Think I would have appreciated more depth.
