I found this book very inspiring. The pictures are very well done. My granddaughter and I found so many fantastic ideas for wedding bouquets and the other wedding flowers. While the book doesn't go into step-by-step detail on how to create the bouquets, it does give good, general instructions on how to create the bouquets for someone who is familiar with the process of creating hand-held bouquets. The book gives several money-saving tips for making the bouquets by substituting more expensive flowers with less expensive flowers when making the bouquets. If nothing else, the book is a fantastic resource for floral designs for wedding flowers.

I bought several "how to" books in order to create flowers for my daughter's wedding. This book is clear and easy to understand. Of the several books I bought this one was used most often. Even though I designed all her flowers well ahead of time from silk flowers, we were able to build off the designs in this book. If you only buy one book - it should be this one!

Beautiful bouquets and great decorating ideas. The description of flowers, colors and choices is great and makes talking about flower choices easy.

great book

This is a good book.

thanks so much -it helped me so much for working with real flowers

good

Not what I expected ,I bought it for my daughter that is planning her wedding I thought that it would have ideas ,how to make flower arrangements but it doesn't .
