Customer Reviews

I enjoy Matthew and Luke cds from our library Mark was missing. I thought it gave me another way to hear the gospels. I thoroughly enjoyed. Will probably donate Mark to library for others to enjoy.

This was a hard book to put down. Really informative.

Wonderful story of one of the Gospel writers. The authors came the characters form and personality. The story I knew, but not with all the added informational tidbits that made it come alive to me. Everyone should read this book and then read Mark in the New Testament. I guarantee you

will be more interested in what you are reading.

As a student and teacher of the Bible, I can truly say that this novel, along with "Luke's Story" and "John's Story" provide an excellent context for the events and relationships surrounding the writing of the these three Gospels. I bought more copies of this book and have given them away to others who study the Bible and ask many questions about how the Gospels came to be written. I can hardly wait for "Matthew's Story".

I enjoyed.

What a wonderful book!!! It is based so closely to the gospel of Mark and the culture of those days, that it seems like it could be completely true, although I know that no one could quote the exact conversations and details such as are given. It did open my eyes to some of the verses in Mark that I had always skipped over. This is one of my favorite books. The book was used, but in great condition. It arrived within the estimated delivery date and was well packaged.

As most of Tim LaHaye and Jerry Jenkins' writings, "Mark's Story" is a great read. I have read the book and now enjoy listening to it on CD. A good thing to listen to on a trip or even during daily drives to and from work.

Highly recommend for anyone wanting to get deeper into the story of Mark. Many details I had never read before, excellent resource!
