Religion And Public Memory: A Cultural History Of Saint Namdev In India

Synopsis

Namdev is a central figure in the cultural history of India, especially within the field of bhakti, a devotional practice that has created publics of memory for over eight centuries. Born in the Marathi-speaking region of the Deccan in the late thirteenth century, Namdev is remembered as a simple, low-caste Hindu tailor whose innovative performances of devotional songs spread his fame widely. He is central to many religious traditions within Hinduism, as well as to Sikhism, and he is a key early literary figure in Maharashtra, northern India, and Punjab. In the modern period, Namdev appears throughout the public spheres of Marathi and Hindi and in India at large, where his identity fluctuates between regional associations and a quiet, pan-Indian, nationalist-secularist profile that champions the poor, oppressed, marginalized, and low caste. Christian Lee Novetzke considers the way social memory coheres around the figure of Namdev from the sixteenth century to the present, examining the practices that situate Namdev's memory in multiple historical publics. Focusing primarily on Maharashtra and drawing on ethnographies of devotional performance, archival materials, scholarly historiography, and popular media, especially film, Novetzke vividly illustrates how religious communities in India preserve their pasts and, in turn, create their own historical narratives.

Book Information

Paperback: 336 pages

Publisher: Columbia University Press; Reprint edition (November 1, 2011)

Language: English

ISBN-10: 0231141858

Customer Reviews

This erudite study is an important contribution to several important issues in contemporary social theory, especially the relations of memory, history, and community through the past thousand years of the vernacular millennium. Deeply grounded in manuscript sources, it never loses sight of the

living context of performance where the texts originated. (Sumit Guha, Rutgers University) In a sometimes dense but always lively way, Christian Lee Novetzke lets us see the processes that allow the songs and stories of a fourteenth-century saint to live vibrantly today. His book might be called the 'many lives of Sant Namdev' a saint (or sant) very important in Marathi and Hindi but neglected in English. With a discussion of 'public memory' and a thorough explanation of the way in which orality influences literacy and performance trumps permanence, Novetzke brings the cultural world of Namdev to life. He breaks new ground in the field of bhakti studies in his use of many kinds of evidence, from the hand written badas used for several centuries by those who perform the song sermon called kirtan to the film industry that features the saints to the contentious disputes over the idea of Namdev as a social bandit. (Eleanor Zelliot, Larid Bell Professor of History, Carleton College) Secular humanist, social bandit, wandering truth-teller, hardscrabble patriot, (pre)-postcolonial critic, humble devotee, saint-Namdev has been many things to many publics. For Christian Lee Novetzke, the many pasts of Namdev offer an opportunity to investigate not only the literary and religious legacy of this important fourteenth-century singer'sant's;of Maharashtra but the manner in which he has been remembered across the centuries and its implications in the cultural, social, and political history of early-modern and modern India. Along the way, we learn much about the place and potential of religion in history and the evolution of the public sphere in India and beyond. Novetzke is a skilled and sensitive writer, and he has produced a challenging, erudite, and engaging book that will interest both historians and scholars of religion. (William R. Pinch, Wesleyan University) The mobility and plasticity of saints' lives invite us to consider how the past comes to be remembered in different ways at different moments in the lives of religious communities. Religion and Public Memory offers a theoretically sophisticated and historically textured analysis of one saint's reception and legacy over several centuries. Highlighting the importance of social memory in understanding the transmission of the past into a series of presents, this book makes a substantive theoretical and cultural-historical contribution to the study of public memory in religious contexts. (Elizabeth Castelli, Barnard College) Christian Lee Novetzke is a rising star of his generation. In this book he takes English-language scholarship on Marathi bhakti traditions to new levels of theoretical sophistication, as he investigates the interactions of text with performance and of history with memory in preserving and embellishing the legacy of Sant Namdev. (Anne Feldhaus, professor of religious studies, Arizona State University) In this book Christian Lee Novetzke does a marvelous job of redefining bhakti religion in India's;so often described as personal devotion's;as a set of practices of recalling the past that constitutes 'public memory.' Novetzke's elegant theorization of the creation of publics at the interstices of

memory and history unfolds through original, nuanced studies of the career of the figure of the saint poet Namdev and of kirtan as an oral, performative form in Maharashtra. (Indira Viswanathan, David B. Truman Professor of Asian Studies, Mount Holyoke College) This excellent scholarly study is immensely readable and engaging... Highly Recommended. (Choice) [A] must read for South Asia scholars. (Madhuri Deshmukh H-Net Reviews) An artful and erudite study.... By far one of the most provocative and insightful recent works on religion in South Asia. The bewildering range of Novetzke's sources, combined with the high levels of theoretical sophistication that he brings to the idea of 'public memory,' make this an incredibly substantive contribution. It is bound to become a classic in the field. (Davesh Soneji The Journal of Asian Studies) Like an expert musician, Novetzke has the ability to sit down at a score and transpose. This book transposes the enduringly popular Maharashtrian poet-saint Namdev, a true icon of what it means to be in love with God, into a fundamentally new key: the sphere of religious publics. Religion and Public Memory thus reconceptualizes a major aspect of Hindu religion; indeed, global religion; and for those who cherish Namdev, it is a triumph of sympathetic listening. (Jack Hawley, Columbia University) Novetzke brings us a major twenty-first-century update to the study of Hindu bhakti traditions.... [His book] demonstrates a broad intellectual move that is worthy of the attention of all historians of religion. (Dan Gold History of Religions) Innovative, exciting, and in many ways pathbreaking.... Its range is surely unusual for a first book. (Vasudha Dalmia Book Review) We can hope others will respond to the historiographic challenges posed so effectively by Novetzke. (Brian Hatcher American Historical Review)

Born into a low caste of tailors in thirteenth-century India, Namdev gained widespread fame for his innovative performances of devotional songs and simple affection for God. Today the figure of Saint Namdev is central to many religious traditions within Hinduism and Sikhism and is a key presence in the early religious literature of northern India, Maharashtra, and Punjab in the second millennium. He appears throughout Marathi and Hindi modern public spheres, where his identity fluctuates between regional associations and a pan-Indian, nationalist-secularist character. Through the lens of memory and public performance, Christian Lee Novetzke considers Namdev's historical permutations in India over eight centuries. Drawing on ethnographies of devotional performance, archival materials, scholarly historiography, and popular media including film, he vividly illustrates how India's religious communities preserve their pasts and create new historical narratives around perennially sacred figures.
