Customer Reviews

Pros:- Easy to read book, just read and enjoy line by line- Jokes are easy to understand for kids and are pretty funny- Brings back old memories of when there was a book fair at school- Kids thought it was funny and enjoyable
Cons:- Book is super long- Some of the jokes are so corny
Upon reading the first few jokes it reminded me of when I was 8 and the school had the book fair come into the library. These books and the corny jokes they had inside of them were always a hit. Looking back on it, I wonder how I was so enamored by such a simple book. I only got through about 10 pages before I couldn't take any more of the jokes. I read it to my children and they thought it was pretty funny, of course I only picked and choose the good ones and the ones they would actually be able to understand. They have hijacked my iPad and are reading the book on their own now (which is a good thing!). Overall, not a bad book, I did get it for free since it is a free ebook, so not much to complain about. Overall, I would probably only recommend this book to parents with nothing left to read to their kids.

Mr. Hogan had a giveaway for this book on LibraryThing and I was fortunate to have snagged one of the KINDLE copies which were being given away and the following is my honest opinion for this book. Being a child of the 1950s we didn't have all of the things kids of today have. We had no DVDs, CDs, high-definition televisions, electronic game boxes, etc. Instead we all played street games; girls had their games and the boys had their games. Reading this book brought me back to those simple days, days in which kids had to be creative in finding things to amuse ourselves with. One thing we had in common was jokes and more jokes. Unfortunately, I believe the art of children telling jokes to each other has for the most part been lost. Reading this book as an adult, I believe you'll find it rekindling your memory of those days when you and your friends shared jokes on a regular basis and remember how happy you were telling them. If it does, then why not share this joy and happiness with your children and see if they'll come up with some of their own jokes. For rekindling the memory of my days as a child and for allowing today's children to experience the telling/sharing of jokes, I giving this book 5 STARS.

So i got this book for my son, hes just like me! We both love reading books, comics, etc... Today we went to a doctors appointment after school, and we waited and waited for the doctor to call, and like any other kid he gets bored, annoyed, impatient, but then i remembered that i had this book on my ipad on told him about it, and we decided to read it, first he was like mom...! This is not funny 0_o! But we continue reading, skipping pages, and then he was like "i will tell me friends at school some of this jokes" , So yeah there are a few jokes in there a little corny, but he found this book funny enough to share with his friends (he is in 2nd grade), he even read some of them to his brother when we got home and he also liked them (his thirteen), most of the jokes reminds me when i was hes age, brings back many memories of me and my sisters, even me (33) found few of them really funny. This book is appropriate for younger kids (is kids safe), easy to read, jokes are short, enjoyable, fun, and this book is SAFE!! Period! Overall is a really cool book for the kiddos! I highly recommend this book "Jokes for kids: Kids Jokes: 300 funny jokes for kids" is something that will bring any kid attention. (Reading is fundamental, The more that you read, the more things you will know. The more you learn, the more places you'll go. ~Dr. Seuss,)^^* I got this book "Jokes For Kids: Kids Jokes: 300 Funny Jokes For Kids " for free or discounted price for more honest and unbiased opinion of it

**^^

I got this book for daughter that is eight years old. She really enjoyed it as did I. Granted, it has its fair share of jokes that are kind of cheesy, but the good one outweighed the bad. I am happy with any book, as long as she reads it, and this one kept her attention through the whole book. She loves being the center of attention and she has put together a whole comedy show for our family dinner this Sunday. I also read through the book with her and found it to be a good read. I had tons of joke books when I was a kid so it brought back good memories. Overall this is a great book for kids and definitely a good one to break up the monotony of reading traditional pages of books plus they do say laughter is the best medicine. If after reading my review of this product or any of my other reviews and interesting or useful please rate it as "helpful" or leave a comment. I truly enjoy writing reviews on products that will potentially help someone make an informed decision based on my experience and I also greatly appreciate and I love and hearing feedback so please feel free to let me know if I helped. I make most of my daily purchases here on and base my purchases on reviews of the product from others as well. I know that honest and helpful reviews provide insight to the company and to the purchasers as well. I received this product for free or at a discounted rate in exchange for product testing and review. I am under no obligation to provide a positive review and received no incentives or rewards for doing so. My aim is to highlight features and drawbacks that I would want to know about as a buyer, not hype the product for the manufacturer to increase sales. My remarks are sincere and true. I work very hard trying to write insightful and thoughtful reviews for each item. My hope is that these reviews are helpful to others. While it is true that many items are received at discounted rates or complimentary, my reviews are completely unbiased as well as honest and are my personal experiences and opinion of the product. Once again, it is just my own opinion and experience.
