## **Customer Reviews**

Fantastic read. I almost felt as if I was living vicariously through Chris based on the way he described his experiences in the prologue. His story was extremely relatable and I felt many emotions -- primarily a mixture of compassion and a youthful excitement -- while reading what he went through. The guide is well-written, specific, and breaks down every detail any traveler might need to know. Chris even touches on subjects that travelers may deem "unnecessary" to know -- such as cultural and social tips, which end up giving the reader an extremely clear vision of what to expect when traveling in Beijing. Definitely a must-read for anyone traveling to Beijing (& honestly, these tips can be applicable to most places in the world). Chris's story & storytelling alone makes the

purchase worth it.Highly recommended.

Super good read if you are preparing to travel to china. I decided to pick this book up because I'm leaving in a month and have no idea on what to expect. China is foreign to me. This is an excellent book and I finished it in one night. I will bring the book with me on my business trip abroad. I highly recommend this book if you are also thinking about taking a visit to the far east.Gives you really good insight on what to prepare for, what to look out for, and what to expect. I've heard many stories from friends about going to china as an expat, but going instant messaging and conversating can only go so far. In this book, you can get detailed tips and its story form makes me feel like i was there. I am now more prepared as I am quite anxious.

great book! super easy to follow... fast reading! I'm living in Beijing and I would love to have read this book earlier... really! would have saved my a lot of trouble hahaha... The advice is very practical and very useful.... The book, in general, is very accurate and realistic.... totally recommended!

Gread read, incredibly insightful and well written. Will definitely be sending this to my friends and family who are looking to study or live abroad!

Received this book as a gift. I will be teaching English in Shanghai starting August and the chapter about obtaining your work visa while in the country really helped me. This was a great read!
