Grade Level: Preschool and up

Customer Reviews

Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful non-fiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

My toddler is obsessed with trucks, so he got this as a present from his aunt. He loves it! He enjoys pointing out the colors, drivers, and different vehicles. It's a decent sized book (big enough for me to see clearly, but small enough for a toddler's hands) and the pictures are great! The only flaw about it is that the "slide" spots are a little stiff and hard to push over sometimes... Other than that, we love this book!

My 2 year old loves trucks and this is a great book to practice colors and match trucks., I would

recommend this book for any kids who like trucks.

Really cute book, great for tactile kids. My son loves to slide the panels, although they can be a bit hard to grip and get stuck. Overall it's a nicely done book with a variety of vehicles and introduced some vocabulary for young pre-readers.

My 2 year old grandson loves trucks so this book was a huge hit. After he saw this book he didn't want to stop and open any more gifts

Purchased as a gift for my 3 year old grandson; haven't heard whether he likes it or not...but I'm sure he's enjoying "reading" it.

Basically I like the book, but some of the sliding windows are very difficult to open and some I haven't been able to open yet, fearing I may damage the book. My grandson likes sliding open the windows that do work. Nice bright colors and variety of vehicles.

Nice bright, colorful pictures! Love the concept of sliding to find but ours frequently gets stuck and I end up having to slide the flap instead of my kids. Other than that it's a cute book for a truck fan

My daughter absolutely loves this book and makes me read it to her all the time. She likes the sliding feature and she also likes matching the truck from one side of the page to the one on the other side of the page. On her behalf, I give this book five stars. On one of the pages, they show four pictures of people that drive specific trucks. I really like that the picture of the police officer that they used is of a woman. My only "complaint" is that all four people are white. Would be nice to throw at least one other ethnicity in there, but my daughter still loves the book so it wasn't worth taking a star away.
