it was ok

I love these Pocket Genius books, but this one was so small that I couldn't read the print. I sent it back and ordered the hardcopy version which is a little bigger and easier to read.

Handy pocket guide. Would like to have an expanded version with more animals and pictures for preschoolers.

Way too small for even good eyes to read!

I like very much the DK books. I all ways purchase these. This one SPACE was really good, considering I really wasn't that knowledgeable about SPACE. I learned some new things. Good purchase.

Great book for my daughter that can't learn enough about space!

We got the whole set of these books because they have great pictures and good clear information for young learners. Thank you.

I bought these for my grandchildren because they love to read. They are enjoying them very much. Glad I found them!
