learning German and dutch at the same time is, rather tricky, many of the words are similar and sound the same, but some do not. This keeps me on the right track.

clean concise book

This book presents a fun and easy travel guide, with the most simple communication tips. All Information to making one's journey worth the while is laid down in this simple and easy to use language guide. This piece covers it all, every single detail is enclosed.

Very good book. I learnt quite a bit of Dutch, even after having a low attention span for learning a new language. This book also provides number, letters, days, months. It's a perfect beginners book. I recommend it to anyone.

This book is a perfect example of a good thing delivering to its promises. This book is quite useful if you already have a companion pronunciation book or cd. It explains the Dutch grammar well, but for a beginner, you may wish to start with something else. Not bad as a supplement to another language book. This book taught me how to speak fluent Dutch.

It only has a few words on each page and it helped less

Really not much help in helping to start even at basic level.
