Customer Reviews

Frank D. Petruzella has extensive practical experience in the electrical control field, as well as many years experience teaching and authoring textbooks. Before becoming a full time educator, he was employed as an apprentice and electrician in areas of electrical installation and maintenance. He holds a Master of Science degree from Niagara University, a Bachelor of Science degree from the State University of New York College - Buffalo, as well as diplomas in Electrical Power and Electronics from the Erie County Technical Institute.

Rented it for class, super enjoyed it. Honestly one of the better electronics textbooks.

Best electronics textbook ever! Will be referencing this book well after I am done with my classes.

Good shape. Well taken care of.

Covers the field very well

got me through class...

Seems like a good quality product.

The book has all of its pages, but a lot of highlighting from the previous owner. I would have like to known ahead of time that it was highlighted all over the place. I would recommend this to a friend still.

Even though in the description of the item it mentioned a small damage to front cover, the book arrived earlier than expected and best of all, it looks like new!!!!I like the seller's honesty!!!!
