The Ether: Vero Rising (An Ether Novel)

Synopsis

The Fiercest of Warriors? Vero Leland always suspected he was different from others his own age, ever since his childhood attempts to fly. But he never could have predicted the truth—or how much his life was about to change. Soon after his twelfth birthday, Vero learns he is a guardian angel and is abruptly transported to the Ether, the spiritual realm that surrounds the earth. Yet before he can be counted among these fierce warriors, Vero must learn to master his growing powers, competing with other angels-in-training and battling demonic creatures known as maltures as well as mythical creatures such as the leviathan. Until his instruction is complete, Vero needs to alternate between the Ether and his regular life. If he survives training and accepts his destiny—a destiny he did not choose—he must leave everything behind, including his family and the life he loves. Meanwhile, an evil is growing—the maltures are rising, and Vero appears to be their target.

This is a book I will be sending to all of my nieces and nephews. Beautifully written, it draws you in quickly to the very familiar suburban lives of a group of children-angels. Its frequent use of reference to current technology, idiomatic expression and current events, will place the reader not in a remote mythical place or time, but right where they are and in the middle of an epic battle between good and evil. The characters are well developed and familiar. The protagonist, Vero, is pure of heart, but torn between his love of family and friends (especially Davina) and his duties as an angel. Vero's sister Clover is a bit of a mystery but will be extremely familiar to any boy with an older sister with whom they cycle great affection and serious dislike. From the last chapter, Clover promises to shed some mystery in the next book for which I have great anticipation. Warning: if you read this one, you'll be hooked for more. Highly recommended!

Not since the Harry Potter series have my daughter and I so enjoyed reading the same book. "The Ether" is imaginative and fast-paced, and the characters are well-developed and likable. We both loved the challenges faced by the main character, a fledgling guardian angel in training. The whole concept of angels in training is brilliant. Ms. Molinari has a fabulous imagination and writes beautifully. We cannot wait to read the next installment. We're hoping for a full series of books about Vero and his friends.

Awesome !!!!! Characters, storyline, writing style, everything great !!!!! Superb job to the author. I think those who purchase this book for this genre, will truly enjoy. Yea it is written to kids, but at 47 I enjoyed this read. Hope there are more books. I would put this in my top 5 list !!!

I know this book is for young people but I loved it. It really makes you think about heaven and Angels. I highly recommend it. I ended up getting all three books, and giving a set away to some kids at church.

Loved the book. It took me to some places I didn't want to go, but I thought it was great!! Anxious to read the next book in the series.

I read this book along with my 8 yr old son and we both loved it. We are looking forward to Book 2

(anyone know when it will be released). The book has a great plot and an exciting story line - it is really a page turner!!

Heard the author on The Catholic Channel Sirius/XM & bought it for my kids. When my kids who are "everything Potter" fans, said it was as good as, if not better than Harry, I decided to read it myself. Like Rowlings books I couldn't put it down & read it straight through. Can't wait till 1/15!

My 9 year old son and I read this book together and really enjoyed it. We have already pre-ordered book 2. My little guy is a huge fan of Rick Riordan and liked this book equally as much. I read there is a movie deal in the works for this book. We are hopeful cause we would definitely see the movie as well.
