Customer Reviews

Excellent write-up about SEO! Clear explanations, very informative. Author goes into the basics of SEO, and then gets into some good details. Covers recent updates from Google. A good read.

I couldn't get past the phrase "make sure," which is seemingly in every other sentence. It is also repetitive, confusing to read and (ugh) has typos. It's probably an informative book, but the lack of editing makes it hard to slog through.

Great book. Very well written and points out the differences between old strategies and new ones. I've not finished it but already have seen my rank rise after implementing the strategies within which I would not have otherwise been aware of as being so important now. SEO has changed forever and this book will provide much value for years to come.

This new version of seo is extremely diffrent and unique.im very much impressed wid this book....highly recommended and worthy

This book is really amazing and useful book . I just love this book. Highly recommended. Boost to buy it
