A good self-study material and I like the practice part. However there are issues1) Something are stated wrong or confusing. Like it says hushers are always followed by (sorry I forgot the letters already) but 2 lines down it says hushers and gutters are followed by a another list of letters. That is very confusing2) The text does not indicate stressed letters in the word. A lot of other books have a

way either by highlighting the letter or putting a mark above it. Make sure you constantly use the CD for pronunciation.3) Some previous reader commented on the speakers not being native. I could not tell since I never met a native russian and I'm a brand newbie. But I would definitely prefer a native russian accent.4) The textbook could have been organized a little better (like using highlights for a new session). And it could have marked the cd track number so user can find it quickly.5) in the CD, there is too little space left for the student to repeat. And the english after that is not really necessary. I would rather have the russian repeated twice instead of having english translation since I need to use with the book anyways.

great

I bought this to practice Spanish in my car. The CD'S are in Spanish only and meant to be used with the book to read along. I'm not into driving and reading. The quality of the materials is great. The instructors sound really clear and easy to understand.

I'm not finished, but this is great!

Great basic course

Very useful everyday language in a friendly format.

The coursebook is the most thorough and organized than any other I have studied)about 10 others. A GREAT course

A basic Spanish book, suitable for people who are starting out in Spanish. I already had the CDs on hand, so I just bought the book. In general, I would suggest also getting the CDs-reading alone is not a very effective way to learn a language.
