The Deplorables' Guide To Making America Great Again

Synopsis

Winning was just the beginning. Change may start at the White House, but it finishes at your house. In *The Deplorables' Guide to Making America Great Again*, Fox News Radio host Todd Starnes reports from the front lines of the culture war in America and provides insights on what you can do to bring about real and lasting change in our nation. We've told Washington enough is enough, and we want to change the course of the country. President Obama called us bitter. Hillary Clinton called us irredeemable. The mainstream media called us backwater bigots. We were mocked by Hollywood and dismissed by academics. We were marginalized by the media - bullied and belittled by sex and gender revolutionaries. With the election of Donald Trump, the American people have spoken.

Todd Starnes has a pulse on today's culture and shines a discerning light on political correctness that has indoctrinated the minds of people from every walk of life. I am grateful the Lord has given Todd a platform that he faithfully uses to declare Christ's truth.- Franklin Graham Legendary Preacher and Cultural Leader *The Deplorables' Guide to Making America Great Again* should be required reading for every high school student and every patriot in America. Nice compilation of events around the country detailing how widespread the assault has kept from the background to the foreground.

As a 'deplorable' I enjoyed the tongue-in-cheek narrative.

Todd did a great job again!! He has a way of making his point sometimes with humor but you always understand what he is saying. I strongly recommend this book to all my fellow deplorables

Awesome, very good read. He hits truth straight on.

I would declare it a good read, while not terribly informing it serves it's purpose of making us deplorables feel vindicated.

deplorable!

A little too religion focused but I loved the book.
