Philosophy In Practice: An Introduction To The Main Questions

Synopsis

Philosophy in Practice is a completely new kind of introductory philosophy textbook, focusing on philosophy as an activity, rather than as a doctrine. Thoroughly revised edition of a popular introductory philosophy textbook. Contains new discussions of philosophy of religion, freedom, The Matrix, and the epistemology of the internet. Offers a wealth of pedagogical features to guide students through the text, including discussion plans at the beginning of each section, questions, chapter summaries, annotated guides to further reading, and a glossary. Classic passages from the history of philosophy are used throughout, and each part ends with a one-page historical summary. Includes an on-line teacher's guide with teaching suggestions, tests, and essay topics at: www.blackwellpublishing.com/pip

Customer Reviews

"This second edition of Morton's Philosophy in Practice is the best introductory textbook on the market. Morton's approach to teaching takes into account what we have learned about learning and critical thinking over the past twenty years, and the text emphasizes doing philosophy as an integral part of learning it. If you want an introductory textbook which makes it possible to teach philosophy as a verb to undergraduates, one that makes possible real conversation with beginners, this is it."

Michael Silberstein, Elizabethtown College "I find it hard to imagine that one could get very far into this engaging book without wanting to think through, for oneself, the core issues of philosophy. Fortunately, Adam Morton has also provided the basic resources one would need to deal

responsibly with those great issues." Gareth B. Matthews, University of Massachusetts Amherst, author of *Socratic Perplexity and the Nature of Philosophy*

Philosophy in Practice is a completely new kind of introductory textbook, focusing on philosophy as an activity, rather than a doctrine. At its heart is a stimulating sequence of exercises, activities, and examples that lead the student directly into philosophical thinking and arguing. The book is divided into three parts, concentrating on issues of reason, experience, and reality. Each is covered in a way that makes clear both the key connections between metaphysics, epistemology, and ethics, and the main trends in the history of philosophy. It provides the ideal general introduction to philosophy. This second edition has been extensively revised. There are new discussions of the philosophy of religion, freedom, *The Matrix*, and the epistemology of the Internet. In addition, a companion website includes an online teacher's guide with resources for students, suggestions about teaching all parts of the book, plus tests and essay topics: www.blackwellpublishing.com/pip.

good quality product, quick shipping

The title of this book proposes it as an "introduction" and it is. But it takes you much much further than that, without making you feel like you are struggling to get there. My only complaints about this book are very minor. There is one paragraph in the book which I disagree with and have strong evidence to show that it is an error, whether the author would agree with my position, I don't know. This being the only piece of text I would really change. Not bad for a book of this size. My other minor quibble, is that this is a textbook and has the look of a textbook. Why not shop this book to a wide audience? It's far far better than any non-fiction philosophy book that I've seen actually marketed to the general audience. Oh and one other thing, that goes hand in hand with the above point: the index is ok, but could be better. I read this book soon after it came out and what I learned has been very valuable since then. If you know nothing about philosophy and want to become a crack philosopher over night, or if you are already a crack philosopher and want to see how to write a great book, go out and buy *Mortons Philosophy In Practice* - Now ! Highly Recommended !

I ordered a used textbook which was said to arrive Aug 26-Sept 13. I received it Aug 24 and the condition of the used book is as described. I am very satisfied. Thank you!
