Demons Of Magick: Three Practical Rituals For Working With The 72 Demons

Synopsis

Demonic magick can lead to a life of success, power and extraordinary peace. The beauty of demonic magick is that spiritual growth arises from material pleasure. Demons will demolish enemies, enrich bold ventures, satisfy material desires, and provide you with wisdom, charisma, healing and persuasive dignity. If these are works of darkness, they bring great light. Demons of Magick provides you with three rituals for working with the seventy-two demons of Goetia. The first ritual is a way to petition for a simple result. The second method is Connective Evocation, where you sense the presence of the demon, to obtain knowledge. The third method provides you with the instructions for a Full Evocation, with the demon brought to visible appearance. Each of the seventy-two demons is proficient in several areas, and all of their powers can be used alone or in combination. You have thousands of sophisticated powers at your disposal. Gordon Winterfield says, "My intent in creating this book has been to offer something genuinely original, and unobtainable elsewhere, based on the wisdom of experienced, practicing occultists. I have no interest in peddling the same weary methods that can be found elsewhere. It is therefore unavoidable that the contents of this book will challenge much of what has been said on the subject. The magick in this book is a modernized, workable method, and will violently contradict many beloved theories and beliefs. This book may offend you, but if you are open minded, I believe you will find a method that works for you quite readily." You will discover: The secret Evocation Keys for attracting the demon to you. The names of 288 angels used to constrain the demons. 144 demonic and angelic seals. 72 colored sigils for working the rituals. The Ritual Opening that calls on five archangels. Words of Power for achieving altered states of consciousness. The safest and simplest methods for evoking demons.

Customer Reviews

I wanted to work with demons of the Goetia for a long time, and bought many books on the subject. Nothing really clicked for me. I didn't want to worship them, but didn't believe they were waiting to drag me to hell either. Everything seemed outdated or out of touch. Then I found exactly the tone I was looking for in the first book by Gordon Winterfield, "Magickal Attack". I used rituals from it and had great success. Now this new work, "Demons of Magick", has come from Mr. Winterfield, and I am completely blown away by its depth, detail, beauty, scholarship and practicality. I have no doubt that this book can help me do whatever I want. The title says "Three Practical Rituals for Working With The 72 Demons". What this means is that you have the choice of three ways to work with each demon. Each demon has multiple powers, so you can see that there are actually thousands of possibilities for custom rituals. As is true with all books from The Gallery of Magick authors, this book's focus is on clarity, simplicity, and practicality, with no need to buy endless oils, herbs, etc. The high quality of this book makes it a pleasure to read and hold. The color Sigils are works of art in themselves. I highly recommend buying the paperback! If it were possible to give 10 stars to "Demons of Magick", I would. Thank you Mr. Winterfield!

I am a real person. This is a real review. I performed ritual 1 in the book with the demon Sitri. Sitri is a demon that seems to deal with lust. I employed the ritual to enflame the passion of a specific person. After performing the ritual; I went about my business. First I went to the movies with my kids. A cute young employee flirted with me. After that me and my kids sat down in the theatre; two female patrons seated in the row ahead of us engaged me in flirty conversation. After the movie, I dropped off my two youngest, and me and my oldest (22 years old); headed out to the Karaoke bar. Upon arriving I had a male patron act like he was hitting on me; the lady at the table next to us flirted heavily; and while requesting a song to sing; another female patron grabbed my ass. I have never

experienced anything like that. I had evoked Sitri to enflame the passion of a specific person; but that seemed to bleed over to many people around me. I did also enflame the passion of my target which became apparent a few days later. As amazing as this sounds; these were my no b.s. results with my first ritual. I want to thank Sitri for the help; and the books author. Thank you.

The only thing I can say is WOW! I have had this book (e-book) for a while. I have interest in the occult and the GOM deliver. Thank You Gordon, Thank You GOM! I started out with Words of Power, and since have bought most of the books. I have seen instant success with Sigils, of Power and the mere fact that it works is a life changing revelation. I am going to be honest here, I still haven't done any real practice with this book. I am telling you this because I was thinking that I should perhaps put 4 stars and then upgrade to 5 stars after actually having success with it. I decided to give it 5 stars right away, and I hope this review will offer some advise as well. You should read this book many times. I have been going through it over and over, and everytime I do so I discover a little detail that was right in front of me and I hadn't noticed before. Gordon's writing style has something about it. I wouldn't be surprised if it is charged by his own powers, he doesn't let anything slip away or left untouched. The only complaint, if I can actually say I can have one, is that with all GOM books, there are some more details I'd like to ask about doing magick for others. Other than that, read Gordon 10 times if you must. I strongly advise that. There is so much information in the first chapters and it's easy to miss. It's because people want to dive into the practical stuff fast, and because people who really want and are drawn to magick are often lazy. There are so many powers available here, and so much info that discards all the mumbo jumbo we have been taught to believe, that if I could give this 10 stars I would. Thank You Gordon.

Winterfield has synthesized centuries-worth of texts, systems, and theory into a modern compendium and guide. Readable, comprehensible, and usable, this is a contemporary tour de force on the demons of the Goetia.

This is POWERFULLY GOOD!!!WOW does this book deliver the goods!! I always wanted to work with Demons but all the dis information put out there coupled with the thousands of dollars worth of equipment kept me trying to find another way. This is brilliant. I already have results from my second ritual. MASSIVE results!! Don't listen to the low reviews, don't listen to the good reviews. If you're drawn to it, pick it up and run with it!!! The only way to know for sure is to simply do it yourself. If you are wondering which one to work with first, take a look at VALAC. If those powers appeal to you,

trust me you will not be disappointed. Take care!

He has a writing style that is engaging and has a way of making the subject matter much easier to comprehend. As much as the book's title seems like a dark topic, explains it in such a manner that makes it feel as if you are working with the light, and you want to work with it, and even forget that he is talking about demons. I have no doubt that this magick will work, similar to Magickal Attack which I also own. I love this book, his work as an occultist, and him as an author. I hope he writes more books.

Excellent work exposing the specific evo/invocation keys for the demons of the Goetia. In that regard, this book has something for all practitioners, from demonolatry practitioners to the staunch traditionalist. Few people understand that is the secret to making contact with any Daemon and most spirits, and powerfully so, but it is hard to derive such information without years of experience and practiced communication in ritual. That makes this work utterly priceless.
