Essential Elements For Jazz Baritone Sax Bk/2CDs

Synopsis

Specifically designed to teach jazz basics to students with 1 or 2 years playing experience, but with no prior experience playing jazz. Great for individual or classroom use. Teaches the basics of swing style in a step-by-step approach using well-known songs. Improvisation is made easy starting with simple 2-measure phrases. Scales and basic theory are introduced in a simple and easy to understand approach. 2 CDs are included with recordings of all exercises and arrangements. Other features: 7 full band arrangements, sample solos, jazz history and people.

Customer Reviews

Ordered expecting to receive play-along CDs per the item description, but instead this is the newer version which includes a code for digital download, or a card to mail in for CDs. I opted for the download, though the download code in the book was invalid. Luckily you can also use the ISBN number to activate the download. The download selection on the website clearly showed it was for Baritone Sax, but all of the downloaded tracks, once downloaded, area labeled as Alto Sax. Of course that doesn't seem to really matter, but it seemed strange.

What I like about this book is the nice melodies and easy but fun transitions into jazz. It is for beginner level though. However what i hate about it is that the content really doesn't have anything to do with the specific instrument. I have two bari and tenor sax students that i bought each the

tenor and bari book. Inside they are the same. Yet they can't play together due to transposing issue. Great as a general jazz book that can work with any horn. But get another for specific instruments role and techniques.
