MapEasy's GuideMap To Bermuda (Mapeasy's Guidemaps)

Synopsis

Bermuda is known as one of the world's most beautiful tropical playgrounds with beaches of pink sand, protective barrier reefs, mysterious caves and clear seas. This is one of the nicest and most tourist-friendly islands that we have visited! This new map was created in our "Island Style" watercolor and contains details of Hamilton and St. George as well as an overview of the entire Island. We have even shown the locations of the many famous Shipwrecks that surround the Island! One look at our Bermuda map and you will soon imagine yourself zipping past the pink cottages on your moped, headed for lunch at the Swizzle Inn!"

Customer Reviews

This is the most worthless map I have ever seen. I think these people were too concerned with the artistic aspect, and they failed to create something useful. And as a guide book? HA! A couple of sentences about a few select sights does not make a guidebook. If you want something pretty to look at while at home, then this would probably be fine. But don't bother taking it to Bermuda with you.
