Customer Reviews

Beautiful decorating ideas. Wonderful pictures.

Beautiful Book

Very nice book.

Great book, excellent condition, shipped super fast. Thanks!

Love this book. It is now my favorite. A friend had it and I kept going back to look at her book so had to get my own. What I love most is that it covers a wide variety of styles that make up Western Design in architecture, interior design, furnishings, and accessories. The photos are beautiful and look like homes that people really live in. Elements of the style can fit in any home whether it is modern or traditional or eclectic. Like any good design book, it covers every room from kitchens to living rooms to bedrooms but also includes outdoor spaces. Even if you are on a tight budget, you will find elements that you can use in decorating your home or cabin. You will know what to look for in thrift and consignment shops that have that casual old west style.

So many different type, eras etc. I pick this up when I'm trying to decide what colors will look well in own SW home. Gives ideas for bookcases, gardens, porches, etc. Fun fun book with awesome colors, accurate statements. All editions are great!

This is a better than average specimen of the ubiquitous "[Something] Style" house-porn books that litter the bookshelves. I look at a lot of these, and most can be summed up by "good photos; bad text". Or "decent photos; really dumb text". The book at hand starts with an intelligent and nicely-illustrated essay on the roots of Western style, by Elmo Baca. The following photo chapters are unusually good, and the text is at least not embarrassing, and often pretty good. The photo captions are where the dumb errors enter, but wth. Worth a look, and available cheaply used. Happy reading--Peter D. Tillman
