GED Preparation 2017: GED Study Guide With Practice Test Questions For The GED Test

Synopsis

The best way to prepare for any exam is to practice, but only if the practice questions are worthwhile. You don't want to waste time - and money! - retaking an exam. You want to accelerate your education, not miss opportunities for starting your future career! Every year, thousands of people think that they are ready for the GED test but realize too late when they get their score back that they were not ready at all. There are a variety of methods to prepare for the GED test...and they get a variety of results. Losing points on the GED exam can cost you precious time, money, and effort that you shouldn't have to spend. What is in the book? It's like real-time study guide as you practice to help lock in the necessary information.

Language: English

ISBN-10: 1540893391

ISBN-13: 978-1540893390

Product Dimensions: 8.5 x 1 x 11 inches

Shipping Weight: 2.4 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 157 customer reviews

Best Sellers Rank: #21,692 in Books (See Top 100 in Books) #6 in [Books > Education & Teaching > Test Preparation > College & High School > GED](#) #108 in [Books > Education & Teaching > Studying & Workbooks > Study Guides](#) #288 in [Books > Textbooks > Test Prep & Study Guides](#)

Customer Reviews

I got this book for my nephew who opted to take this test versus finishing his senior year of high school. He asked for my help with the math, but having been out of school for several years and not knowing specifically what type of math is on this test, I hoped to find a book with some specifics. I reviewed every section of this book and I was impressed with how well it organized the information and provided examples. I was grateful to receive this book for free in exchange for my honest and unbiased review. To start, this book has an excellent introduction. It explains what the GED test is, how the test is administered, what all the sections/topics are, how many questions are in each section and how much time is allotted for each section. They also explain how the test is scored. The Sections are as follows: Math, Reasoning through Language Arts, Science, and Social Studies.

The last section of this book includes Practice tests for each section and answer keys; an added plus. Each section is broken down into sub-sections and those sections are broken down even further. Each sub-section includes plenty of examples to understand the subject matter. I highly recommend this book for anyone tackling this test. I don't think there is another book around that could present this information in a better format. Below I've listed all the sections, subsections and some of the additional breakdowns:

- Matho
 - Numbers and Operators
 - Positive and negative numbers
 - Order of operators
 - Greatest common factor
 - Comparison of rational numbers
 - Units of measurement
 - Decimals and fractions
 - Ratios
 - Percentages
 - Exponents
 - probabilitieso
 - Algebra
 - Algebraic expressions
 - Linear equations
 - Systems of equations
 - Inequalities
 - Quadratic equations
 - Functions
 - Absolute valueso
 - Geometry
 - Properties of shapes
 - Congruence
 - Right triangles and trig
 - Coordinates of geometryo
 - Statistics
 - Describing sets of data
 - Probabilities
 - Reasoning through Language Artso
 - Writing
 - Grammar
 - Nouns and pronouns
 - Verbs
 - Adjectives and adverbs
 - Constructing sentences
 - Punctuation
 - Active/passive voice
 - Point of views
 - transitiono
 - Writing: The Essay
 - Writing a thesis statement
 - Structuring the essay
 - Providing supporting evidenceo
 - Reading
 - The main idea
 - Vocabulary
 - Supporting details
 - Facts vs opinions
 - Drawing conclusions
 - Scienceo
 - Scientific Reasoning
 - Systems
 - Scientific investigations
 - The scientific methodo
 - Life Science
 - Biological molecules
 - The history of life
 - The basics of a cell
 - Enzymes
 - Cellular metabolism
 - The cell cycle
 - DNA Replication
 - Transcription and translation
 - Genetics
 - Evolution
 - Ecology
 - plantso
 - Human Body Science
 - Terminology
 - The circulatory system
 - The respiratory system
 - The skeletal system
 - The muscular system
 - The nervous system
 - The digestive system
 - The endocrine

system
The reproductive system
Chemistry
The atom
The periodic table of elements
Chemical bonding
Naming molecules
States of matter
Acids and bases
Solutions
Physics
Mechanics
Forces
Circular and rotational motion
Energy, work and power
Thermodynamics
Fluid mechanics
Waves
Periodic motion
Light
Electricity
magnetism
Earth and Space Science
Astronomy
Earth sciences
Social Studies
US History
World History
Economic Theory
Civics and Government
Geography
Behavior Sciences

Lots of information in this book!!!! Perfect!!!

This product will help me pass my GED test. Has great information in it. Seems very useful and not a waste of time and money.

helping with what needed

This book is very helpful and not because it's a cram book but let's say if your just trying to pass then I would highly Recommend this book

This is an awesome learning tool and very helpful study guide.

Good source of knowledge, but lacked the practice questions I was hoping for.

Straight forward and helpful.
