My almost-2-year-old boy asks us to read this book to him multiple times a day. The illustrations are good, and the story (to the extent there is one) makes sense and is engaging. The illustrations are probably too busy for a really young toddler, though. Lots going on here. I question some of the descriptions of instruments, though. An animal wearing a wrap-around tuba is described as "trumpeting", and an animal playing what appear to be bagpipes is said to be playing the fife. Perhaps these terms were interchangeable long ago, but for now it's not accurate and just a slight bummer to have to change the text as you go.

I'm so excited to have been able to add this to my daughters library. The book is brand new, the cardboard cover hasn't even been creased. The images are totally vintage though, and the story is way too cute. I'm exceptionally pleased with the purchase!

We love this book. So classic and easy to read. Little kids love the excitement and parents love the one sentence pages!

Good value for money. I liked the diversity of musical instruments and the animals playing them. My son liked it.

My son can't get enough of this book. He is 22 months and mimics everything I read from it. So cute!!!

Got This For My Nephew and He Enjoyed Reading it Straight From My Kindle. Its a Fun Book, Perfect for Pre-K/K

My two year old loves this book. A total winner!

Our 2 year old loves to
