# Audubon Wildflowers Calendar 2014

## Synopsis

Splashing landscapes with swaths of color before disappearing for another year, wildflowers are some of nature's most ephemeral but delightful creations. Audubon Wildflowers features a year of gorgeous North American blooms photographed in their native habitats: sunny yellow Brittlebush spreading out over a sandy desert, a high mountain meadow covered in Silky Lupine, Pacific Rhododendron among fog-shrouded redwoods.

## Customer Reviews

Audubon's mission is to conserve and restore natural ecosystems, focusing on birds, other wildlife, and their habitats for the benefit of humanity and the earth's biological diversity. Audubon's network of community-based nature centers and chapters, scientific and educational programs, and advocacy on behalf of areas sustaining important bird populations, engage millions of people of all ages and backgrounds in positive conservation experiences.

Love the photography and the readable size of the print ".Secret Garden" is on the wall of 'My room' - office, utility, memos on the wall sort of place,,,,,Others I ordered were sent as Christmas gifts..The size is wonderful and the space for writing memos is adequate. I'll shop for them again next year....but have the 'mail-aways' sent to the recipient direct. Figuring how to package them was a puzzle. We cut up carton boxes to protect the item and that was a pain but it worked. Cardboard and masking tape and the post office and they reached their destinations. Donna Compton.

Gorgeous monthly pics. Will order again 2015! Was tempted to keep for myself, though did get a second one that will be my own.

This is a beautifully done calendar and the amount of text VS notes space on the calendar page is well proportioned. I took one star off because the advertised free digital daily calendar seemed useless. Very few topics for their daily messages/photos nothing close to the quality of the Audubon shots. And there was no way to add personal dates or notes so you are really logging in to see only what day it is. Seems senseless if you are already looking at your desktop.

My mum, a true 60s flower child loves this calendar. It brings the beauty and warmth of the outdoors right onto the Kitchen bulletin board.

I used to get freebie calendars from food magazine companies, but apparently they didn't do them this year, so I had to actually buy one. I was looking for one with delectable food items on the pages, but couldn't find one; Settled for one with flowers. Ho hum. Anyway, the calendar portion itself is good. The dates are easily readable and big enough to write notes on. It's fine.

It was hard to find good quality low priced calendars in stores in December, but I came on and once again found what I was looking for. The pictures are all great, not one month where I would rather cut the picture off and go with last month's picture. Great buy.

love this calendar

Nice calendar.
