Kinsey Millhone to listeners everywhere. **A Is for Alibi** Nikki Fife, convicted of murdering her husband Laurence, is out on parole after eight years of prison. Now, she hires Kinsey Millhone to find out who really killed Laurence. The trail will twist and turn until finally turning back on itself, bringing Kinsey face-to-face with a killer cunning enough to get away with murder. **B Is for Burglar** Elaine Boldt is missing, and her sister wants Kinsey Millhone to find her. It seems to be a routine job until Kinsey is ordered to drop the investigation just as she discovers that days before Elaine's disappearance, her next-door neighbor and bridge partner had been murdered. Now, the killer is still at large . . . and looking for Kinsey. **C Is for Corpse** Kinsey Millhone is recruited to help Bobby Callahan, a young man struggling back to life after his Porsche was forced to take a near-fatal nose dive over the edge of a canyon. Three days later Bobby is dead and Kinsey must capture a cold-blooded killer before he strikes again.

Sue Grafton spends part of the year in Kentucky and the rest in California. All of her Alphabet Mysteries are available from Random House Audio, read by Judy Kaye.

I started Sue Grafton's Kinsey Millhone series at N then I read O. I was hooked! I spent a lot of time looking in second hand stores for her old books. Fortunately a small library in the next town was closing and I was able to get some of the old books. Also had some for a good price. A is for Alibi the first book in the series was "unputdownable" Kinsey trying to discover who actually killed the philandering husband of Nickki Fife. The twists and turns are great. Kept me reading until the end. Get this book you will not be disappointed "A" is for Alibi (The Kinsey Millhone Alphabet Mysteries) I ordered a package of three books so I had A-B-C for a great price. I love the fact with one click you have a book ready to read.

As always, I love Kinsey and look forward to the next book. The writing is great and the stories intriguing. I don't know if the many, many typos were in the original books, but EDITORS AND PUBLISHERS: If you are going to charge hefty prices on Kindle, please make sure there are NO TYPOS!!!! NO EXCUSES!!! SHEER LAZINESS AND GREED ON YOUR PART. SHAME ON YOU!!! Sue Grafton deserves better and your readers deserve better.

Kinsey Millhone is described so well that I am constantly amazed that she is, in fact, a fictional character. I am a mystery-loving librarian and for some obscure reason resisted starting this series until several entries had been written. I actually did myself a favor: When I did start reading about Kinsey's exploits, there were several books to gloat over. Not only does Kinsey deal with a specific client's difficulty, she also reveals tantalizing glimpses into her personal life. Thank you, Sue Grafton! I trust you have a plan in place to continue Kinsey's tale after the Z entry.

All of Ms. Grafton's books in this series are very entertaining and have good plot twists and great descriptions of characters and places. A fun series to read and I like the character development as you progress through the series. It's great to have a female detective and Kinsey Millhone is a unique character. The person who reads the audio version is terrific and really captures the stories since they are told from Kinsey's viewpoint. It's a great series to pass the time when you're driving. Not too in-depth but always a great story to listen to.

So glad to discover Sue Grafton. Suspense novels are my way to relax my mind. Grafton offers exactly that with the added bonus of fine writing.

Bought it after I heard an interview on NPR with Sue Grafton. She was delightful and I loved the affection with which she spoke of her protagonist, Kinsey Millhone. And the respect she showed her fans. I'd seen the books for years on best seller lists, shelves, etc. I think I ignored them because of the A,B,C.... titles. The three would make good suspenseful films. Now looking to see if there is a DEF deal on Kindle....Buy the books. I suggest doing it on a Friday so you won't have to stay up all night during the work week. Hard to put down? More like impossible.

You cannot go wrong with the Sue Grafton alphabet series! I prefer listening to them on cd rather than reading the books because the lady that reads them is outstanding! Judy Kaye is the gold standard of audio book readers! Kinsey Millhone is one of the best literary detectives of all time.

I have read every one A through X and enjoyed everyone of Sue Grafton's books. This book that I just ordered A,B,C is a gift for a friend who has never read her books. The best! With only Y and Z left, I am curious to see what will be next after Z is completed.
