The other reviewers said it all. I've worn out a bunch of these over the years. I got a used one for \$4.00+ shipping.

Item arrived on time and as described. Would recommend.

I love the DeLorme Atlases because they are almost as detailed as the USGS maps and show us all the back roads.

This atlas is fabulous for driving around the back roads of New Hampshire. It has the names and route numbers of every single road in the entire state, even dirt roads, even indicates which is which. It is not very helpful for roads in cities or large towns, showing only the main ones. But in addition to that it lists canoe trips, state parks, every single private campground in the state, tons of hiking trails (in detail), national forests, snowmobile trails, downhill and cross-country skiing centers, some biking trails, fishing spots (in great detail), museums, historic sites, natural features, the arts, golf courses, covered bridges. Absolutely essential for exploring New Hampshire.
