Best Sellers Rank: #935,878 in Books (See Top 100 in Books) #134 in [Books > Travel > Middle East > Israel > General](#) #640 in [Books > Travel > Reference > Phrasebooks](#) #2470 in [Books > Reference > Foreign Language Study & Reference > Instruction](#)

Customer Reviews

I really recommend it... Have fun learning using this great book... --.co.uk on-line review, October 2000. Unbeatable! Plenty of colourful illustrations so all the family can grasp what is wanted... --.co.uk on-line review, May 2001. Unbeatable! Plenty of colourful illustrations so all the family can grasp what is wanted... --.co.uk on-line review, May 2001.

Kristine K Kershul

I bought this book recently, and it's actually very good. I agree with what someone else wrote on here regarding the transliterations in English. But it's still a very useful book. I've been using it so far and I already can tell the difference. I feel more confident reading in Hebrew, and I'm reading slightly faster than I was before. I know that when I finish this book, I'll be reading fairly well, considering I practice every day. I haven't used the CD-ROM just yet, as I haven't had the time, but I've been spending about 10-15 minutes every day with the book and trying to learn how to write and read. I also practice using my siddur, and I'm getting there, I feel like I'm getting better at it. I do

recommend this book for people who want to learn basics quickly. I think the book definitely delivers what it promises.

My niece is in 8th grade, if she was a high school graduate the edition of the book that I was sent, 1998, would still be older than her. It did not come with a CD or an internet support web page. Probably because the publishing date of this very old edition predates the era of the common use of these two technologies. They sold me the book for a very reasonable price. They neglected to mention how old it was. Also, they used the cover of the latest edition to advertise it on . Just plain deceptive. The only saving grace is that Hebrew has not changed much in the past two thousand years.

A great book for those who want to learn Hebrew from the very beginning. I like the teaching method and also she includes the written Hebrew, which you will certainly need to know in Israel at some point. Highly recommended for newbies!

I had a very hard time learning Hebrew even with this excellent brief guide. It is impossible to learn on your own. This book was the best one out there I ever saw trying to teach the alphabet, writing it and in printed form.

nice for what it does does not help if you want to learn to read the Bible

Received this yesterday have shown it to others that are interested in learning Hebrew. This is a great book, looking forward to starting.

I bought this book to help a friend learn Hebrew. This is a nice book, but the English transliterations are flawed, and that's what I had the most trouble with. First of all, the book tells you that the tsere is pronounced "ay", when actually, in the modern spoken Hebrew of Israel, it is pronounced like eh in red. Plus it goes on to transliterate the tsere inconsistently (sometimes as "eh", sometimes as ay). Shva is the same way. When it's not silent, it's transliterated as 'e'...but sometimes as "ay". (Shva is never pronounced "ay".)

GREAT LEARNING TOOL!
