Beyond this list, I have included a list of the top 7 dropship and wholesale directories that you really should know about. Following the lists, you will find a resource for the current best free online commerce themed WordPress themes to use on your websites. Once you have your own website purchased, install WordPress and use one of these free themes. You will need hosting for your website, and I have listed the top 7 dropshipping hosting companies for you. After you have started dropshipping, you will encounter some challenges (everyone does). The next section outlines the top 7 dropshipping pitfalls that I've run into, and also some tips on avoiding them. Dropshipping is a strategy I have used to sell products online while not dealing with inventory or shipping. I make money, and I don't ever actually handle the product. Checkout the Dropshipping 101 section for a quick breakdown. The dropshipper will ship the customer the goods when they order from your website, saving you time and money. Finding credible and reliable dropshippers was the most difficult part of the process for me. Make use of this master list of dropshipping and wholesaling companies to guide you in this process. Be sure to utilize ebay, , Alibaba and other proven sites to build your dropshipping and wholesaling operations. Find a good dropshipper and hand the work off to them.

Customer Reviews

Alot of links I click are now dead mainly in clothing. There is more manufacturers in clothing and I was hoping to expand partners but this wasn't of use for me. For 2.99 it would have been nice to have input on the links provided. All it is is a bunch of links categorized. Some was in the wrong place some that suppose to be in jewlery was in clothing. 2.99 I should have kept. But yet it says updated they didn't test to see if some companies still exist.
