No Bio

Nice thick pages and cute illustrations. Also contains interesting facts about animals ... not that my toddler cares about that right now haha

Grandson loves to lift the flaps to see what is under. Sturdy enough for a sixteen month old to enjoy.

My friend's two-year old really enjoys this book. The flaps are extremely durable. The text is simple and factual, and the illustrations are cute.

Our little boy loves this book, and so do we! So many great little pop ups, and some kind of cool information that I didn't even know. This is a book I actually like reading to our son.

Beautiful pictures and a great interactive story. Flaps are perfect for little hands. My girls love this

book and enjoyed lifting the flaps to hear facts about the different animals. I also used it in my preschool classroom, it was a big hit and a great addition to my forest animals unit. Highly recommend!

This book is AMAZING!!! I've already recommended this to many of my friends. The art is so well done and interactive with the flaps, and even I am learning some things from this book about animals. I can't wait to see more from this artist!!

My 2-year old son loved this book. Very engaging. Covers nocturnal animals, burrows, river animals, tree animals, hiding, and mountain animals. I make some of the animals noises which adds extra fun. Son even carries it around and requests frequent readings. He listens to every word.
