When a textbook in 3rd grade becomes a book that a student doesn't want to give back, you just have to buy him his own copy!

Wonderfully detailed book for anyone who enjoys nature, especially children. Highly recommend this book.

Great Customer Service and Great Pricing as well. This is a very nice book. I bought it for my 8 year old and she loves it. It's easy reading for her, but sh is learning about frogs in class and this is a great supplement to her classwork. Very nice illustrations / pictures too.

Grandson loves this book. It has loads of great information and it put together well. I would recommend it.

My niece loves this book.
