Customer Reviews

After years of playing Bluesharp only, I thought about dusting off my old chromatic harmonica. I bought this collection because it's reasonably priced and I like a lot of the songs. The harp tablature included makes playing easy, especially when you're not that good at reading music. After stumbling through some songs I started remembering how to play and things definitely sounded better then. At the moment I'm having lots of fun playing my chromatic once again and I'd definitely recommend this book. There's even chord symbols and diagrams for guitar players - I don't need them at the moment, but I think they might be useful when you're playing with friends.

lots of songs even for guitars, ukelele and piano too.

Thanks
