Constructions Of Deviance: Social Power, Context, And Interaction

Synopsis

Packed with the most recent and relevant articles in the field, **CONSTRUCTIONS OF DEVIANCE: SOCIAL POWER, CONTEXT, AND INTERACTION**, Eighth Edition, shows readers how to apply the concepts and theories of deviance to the world around them. The book's current, comprehensive coverage includes both theoretical analyses and ethnographic illustrations of how deviance is socially constructed, organized, and managed. Seasoned authors and award-winning professors, Patricia Adler and Peter Adler cover a wide variety of deviant acts-challenging readers to see the diversity and pervasiveness of deviance in society. They present deviance as a component of society, examine the construction of deviance, and explore the processes in society that create deviance. Intriguing selected studies focus on the experiences of deviants, the deviant-making process, and the ways in which people labeled as deviant in society react to that label. The balanced selection of readings is timely and engaging, while in-depth introductions, explanations of theory, and discussion questions guide readers through the fascinating material.

Fine as far as textbooks go. The articles are varied and interesting. Also short enough to read easily. The print is small, and it's a little heavy. But not too bad. I will say that I heavily prefer using e-book textbooks. The savings are great, especially since I never sell the old textbooks. I always mean to, but who am I kidding? Also much easier not to juggle a textbook when you are using a laptop. You have to find a way to prop open and have good lighting to read. With the Kindle for PC, it is easy to copy and paste for notes, annotate or highlight. And it includes footnotes for copy/paste. Bonus to work anywhere in the house without dragging a lamp around. So now I know. Should have done that with this but fine.

The book was in excellent condition. However, while I was at work and my husband was at home taking a nap, our dog ate the top, right corner of the first 70 pages of the book. I just wish I didn't have to pay another \$155 to replace the book. :(

I typically love renting my textbooks from (I saved over \$100 by renting this one), but I'm pretty disappointed with this book. It looks like someone took a razor knife and cut off a section of the back of the book. I don't know what I'm supposed to do if I need to read the last chapter.***Photos are of the last few pages of the book and cuts in the pages before them.

Had to have it for a class

Had to have this book for my class. The authors perspective and research is an interesting read.

The book is what I needed for a class so yay. Renting was easy and cheaper then. Using it

Excellent book

when I received the book half of the back cover was missing, looked as though it was cut off perfectly with a box cutters as well as many of the pages having a slice down the middle of them.
