I gave this 5 stars because I love this! It gives you a table of contents to write down things and it lets you write down your own page numbers. The only problem I have with it is it gives you only a little bit of room to write the ingredients down, which is not a problem because I write pretty small anyway. It has a lot of pages to write down recipes and it is just amazing. Just to keep in mind it looks like a hardcover book, but really it is paperback so if you have a problem with that I would not recommend this product. I wish it could have a little bit of color to it instead of being just black and white, but it is still amazing! Overall this product is a product you should get if you have no place to write you recipes down!

We have a family member getting married. Our hope is to have the book full of recipes from family members. A great way to keep the family recipes going for future generations.

super simple and beautiful!!

exactly what I was looking for, perfect open pages to log your favorite recipes.

Is a nice book but it really can use a hard cover for a better look, the print inside looks a little cheap for my taste, but is a very cheap notebook but i wouldn't mind to pay extra bucks for a better version.

nice little book, could have gotten notebook for much less but like pretty cover. Probably would not recommend for main cookbook, but I got this for vacation home and is great for that purpose.

I love these recipe books. I wanted something simple. They are good quality, I bought the black one and the white one with the flowers on both. This will make it easier for me to stop eating junk food and start writing down my own recipes that I find delicious. Great solution to me eating out all the time.

Great gift idea!
