Customer Reviews

Good casebook fast shipping

It had all the cases necessary for a Constitutional Law class. The cases walk the fine line of informative/entertaining enough to not bore me. But that may have been thanks to the instructor. 8/10 would learn Constitutional Law from this book again. Also informative a source of Unconstitutional Laws.

This is the famous standard casebook for Con Law. Although good, it needs the treatise (same author) in order to get the full scope of the issues. Often wondered why you need a 1,000 page book to explain another 1,000 page book. You would think they combine them into one 1,000 page book. However, while this book lists cases with minimal comment, the other book (typically called a Hornbook) gives extensive commentary on those same cases. So, buy them both.

This book is wordy, too big, and unorganized! Authors could cut more than half of the contents. Too big does not mean the best.

This was a decent text book. It contained A LOT of cases and was pretty dry. But I was well prepared for class everyday using this text!

The book covers a great array of topics, and Chemerinsky is a constitutional genius. However, in paring down a lot of the cases for the book, certain details get cut out of the cases, and they become harder to understand. I understand the desire to reduce the number of pages in the book and the amount of unnecessary reading students have to do, but it would be very helpful to get some of those details included.

Awesome, the best. A pleasure to read.

good notes and easy (but long) reading
