I love Peter's style of whimsical yet detailed and organic pen drawings. Here's another collection of his drawings with texture and depth that will feed your imagination.

Peter's work is always amazing! I love having his books in my collection. I use them to inspire my own work. Wouldn't recommend using these books as coloring books, they are more like art books.

Peter's way of drawing is totally mesmerizing, whether you hold the drawing far away or close you find your eyes meeting new areas of the drawings that you'd never seen before. This book of Peter's drawings has everything from intricate full page drawings to short stories. This book is great for both those who are long time fans of Peter's YouTube channel and those who are looking for inspiration in their own drawings. I would highly recommend.

This is a fantastic book to look at while you listen to a podcast. Maybe a content free podcast?

I love peter and am having fun looking at his art and teaching myself shading and drawing.

It was a gift.- my son loved it!

Legend27 drawing was my favorite
