The FJH Young Beginner Guitar Method, Lesson Book 2 With 2 CDs

Synopsis

Lesson Book 2 provides a seamless transition from Book 1. It introduces three-string chords along with the natural notes on strings four, five, and six. Additional new concepts include eighth notes, chromatics (sharps, flats and naturals), pick-up notes, ties, and rests. Students are encouraged to strum chords to accompany the melody whenever possible. Many optional teacher duets are included. (Students may enjoy playing the teacher duet parts as well!) Every song title has three tracks on the CD: 1) the teacher duet on the left channel and the student solo on the right channel; 2) an orchestration at a performance tempo where the instrumentation and music style enhance the various moods of each individual piece; 3) the same orchestration at a slower (practice) tempo.

Customer Reviews

Sanchez, ReyWelch, Leo

This line of books are great for teaching a beginner on guitar. It transitions very smoothly. And, a lot is learned in a short period of time. Love these books! Thanks

The purpose of this book is to reinforce the notes my son learns in his guitar lessons. This is a perfect book for that. It's accompanied by a CD which has 3 tempos of the songs he needs to learn and can choose which tempo to play along to. Definitely recommend this book!

our eight year old grandson is taking guitar lessons....the book was recommended by his music

teacher.. It is well written
