## Customer Reviews

This book has the most classical-feeling music in it of all of the Basic Piano Library books, unlike some of them where it shakes up different music types. Starting at the second song, Theme from Swan Lake, it goes through a long string of songs that, for the first time, feel like Real Piano Music, as opposed to cute folk tunes or straight up boring piano drills, which is the vibe of the rest of the

books, including #6.

This is a great series. My son has used Alfred's since he was eight years old and has done very well.

Again, would like to be able to get the Technic book for this level. Don't know why I couldn't

Love this series for beginners to intermediate pianists. This level has more classical pieces than the previous levels.

Great

I'm renewing my skills after 30 years. This is perfect

Industry standard

I had this book when I was a kid and lost it. Great for learning how to play!
