Trauma Certified Registered Nurse (TCRN) Examination Review: Think In Questions, Learn By Rationales

Synopsis

This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format.

Found a lot of errors and i felt I lost confidence while studying. Felt the book was helpful with the "topics" to focus on though. Regardless, I passed with one attempt!

Will take the TCRN exam May, so far I love the organization of this book!Wish me luck!

I used this book for my studying for the TCRN. I thought the book was helpful in that it had a ton of practice questions, not all of the questions seemed to make sense with the answers in the back though. The chapters with information weren't as helpful.

Pretty good review for the TCRN. Lots of good info, saw similar questions on exam.
