Welcome!! I'm the writer of the popular Minecraft furniture eBook on Kindle and after many requests I've been working on ideas for beautiful, detailed and decorative house designs. In this eBook I will show you The Forest Cabin. It's a cozy house made mainly of spruce and stone bricks but has a lot of other materials! I just started playing minecraft, this was my first structure that I built, it was so much fun!! It is explained very well and with pictures. There is also a video that I did need to use a few times and was then like , oohhh I get it lol!!! I bought the other ebooks he has out and can't wait to make the stuff. Hope there is more to come real soon!!!

I loved this book for many reasons. Mainly I liked it for the colorful photos and house design, but I also liked the suggestions for the inside design. I recommend this book.

I was completely satisfied with the results of my purchase. Giving great instructions on the build Johan does a great job of instructing you. It does take awhile to build but the results are worth it. I recommend to anyone who loves cabins and Minecraft. 5 stars

Great book I like it . I built a cool cabin with it and it looks great!

I have been collecting Minecraft house idea books & this one just blew me away. My hands-down favorite! My only complaint? I want more house plan books by this author!!! :) Do I recommend this book? Without hesitation, YES!

Just absolutely amazing in every way I love the design and well it's just amazing! I mean you gotta get this it's so awesome I would pay for it!

Nice edition to my kindle library. I particularly like the basement. It also comes with a video guide as it is hard to understand on kindle.

Very good. Really cool house and it looked good and easy to get the stuff needed in survival. It earned the five stars
