Inside The Revolution: Jihad, Jefferson & Jesus: Battling To Dominate The Middle East

Synopsis

A documentary based on Joel Rosenberg's newest non-fiction book, Inside the Revolution. Both the book and DVD trace the three major factors that are shaping the Muslim world today: Radicals, Reformers, and Revivalists. Viewers will not only come away with a better understanding of these three factions, but they will experience the revival taking place in this region through those who have come to realize that Jesus Christ is the only true hope. Features: Feature-length, high-definition video, 70-80 minutes in length. 90 minutes of in-depth interviews, including Iraqi General George Sada, Lt. General William "Jerry" Boykin (retired), former director of the CIA Porter Goss, and more! An exclusive inside look at how Muslims converting to Christianity are affecting Middle East governments. Filmed in Morocco, Israel, Iraq, Jordan and Washington D.C. --This text refers to the DVD-ROM edition.

Customer Reviews

If you are interested in what is happening in the Muslim world I highly recommend this book. In the book, Joel examines three different groups of people in the Muslim world. The RADICALS are followers of Jihad. They believe that Islam is the answer and Jihad is the way. They follow the teachings of Osama bin Laden and Ayatollah Khomeini. Their teachings encourage suicide bombers to blow themselves up. They believe that ultimately the entire world will be conquered by the Muslim faith. The REFORMERS are Muslims who believe that Islam is the answer but Jihad is not the way. They are followers of the political philosophy of Thomas Jefferson. They feel that more Muslim nations need to follow democratic principles of government where there is personal

freedom, representative government, and freedom from oppression. The REVIVALISTS are those who believe that Islam is not the answer, and Jihad is not the way. They are Muslim Background Believers who follow the teaching of Jesus Christ. Throughout the Muslim world many people are coming to believe in Jesus as Savior, not just as a prophet. The third section of the book is the most exciting because the author shares many stories of how Muslims are meeting Jesus in dreams and visions and choosing to follow Jesus. In many Muslim nations, there are reports of many people becoming followers of Jesus in spite of the great personal cost and potential danger they face. Many of the Muslim Background Believers came to Jesus because someone witnessed to them or encouraged them to read the Bible. Once they start to learn about Jesus, many of them report that Jesus actually appeared to them. So, I think our strategy to reach Muslims should be two pronged: first, we must do everything we can to reach out to Muslims; second, we must trust Jesus to work with us to change lives. Here is another book that will encourage you to reach out to Muslims to tell them about Jesus. *Soul Winning: Inspiration for Leading People to Jesus*

It's a good read, until he gets into pushing fundie Christian ideology so heavily.

Very informative and easy to understand. Joel Rosenberg presents the facts only and supports his research with personal experience and many interviews with professional people who have been there and done that. If you have the desire to know what's going on in the world right now, don't hesitate to pick up this book. I had never understood the happenings in the Middle East and the underlying problems until I started reading this book. You may want to read *Epicenter*—the other book written by Joel Rosenberg which helps untangle the confusion about what the Bible says will happen in the end of days and how that relates to what is happening today in the world.

Even though this was written several years ago, it is timely as well as relevant. I thoroughly enjoyed the information shared by Joel Rosenberg. I was not aware of these happenings in the middle east until this read. Well written and timely.

Joel has taken the time to get interviews with a lot of people from other countries and it's interesting to get different points of views in regards to the middle east. I wish more of our politicians would read this. The only reason I didn't give it 5 stars is because it's hard to keep everyone straight since so many of the names are different from what we're used to hearing and then they are similar besides. Of course, that's not the author's fault. His writing style is personable and you feel like he's

writing this just for you and when you don't understand something, you could call him up and ask him about it. Even if you are not a Believer or interested in Revelations, reading how other religions view what's going on in the middle east might still be worth learning about.

i first listened to the audio tapes of this book last year and it was great! so i went and purchased the kindle e-book version.. i love it! its very thought provoking novelthis should be required reading if you are to be a career diplomat any where near or in the middle eastits like a text book on islamic fundamentalism .

This book presents a candid look inside the vast spectrum of Middle East problematic and diplomatic concerns, prophetic end-time developments and their relationship to the rest of the current eruptions facing the world.I see this book about as up to date as can be in light of the fast changes in government policies and biblical prophecies. Any student of prophecy will certainly benefit from the vast amount of knowledge attained by Mr. Rosenberg from both the biblical viewpoint and that from the political scene. I must add it is well written by one of the most insightful and well informed authors of our day.The Unveiling of the TrinityÃ Â LESSONS FROM A BALD CHICKÃ Â The Day the Dollar Dies

This book is a non-fiction about the various factions in the middle east and predominantly IRAN. Of the three factions reviewed in this book are the Jihadists, the Revolutionists, and the Christians.Joel C Rosemberg quotes the Koran, some Hadiths, and various people in high places providing the reader with a clear view of the factions at war with each other for the minds of the middle-easterner.This book came in a multiple book order and was in excellent condition. I am about half way through it now.grace2u
