These cards are truly beautiful. Each one has a gentle healing message and is a beautiful work of art. I own many tarot and oracle decks and I could easily see this becoming my new favorite to do daily draws with. I really didn't do much research before purchasing these, so I had no idea what to

expect. I was absolutely blown away when I opened the box! The colors and even the card backing is gorgeous. I felt an instant connection to these and the positive supportive messages all the cards give is just what I needed. I will absolutely purchase these over and over again to gift to friends and card collectors.

Oh my gosh. These are the best cards I have purchased in years. You get much more than the small booklets that normally come with an oracle deck like this. The information is in depth, powerful, and inspiring. She calls you on your stuff, but she makes you feel like you can conquer the world- at least with all of the layouts I have pulled. I have shown them to 6 people so far, and every one of them want to purchase this deck. I currently own 12 decks, and I have owned many more in the past. I have been using Tarot and Oracle cards for over 25 years. I can honestly say that this is one of the best decks I have ever owned and I am using it daily since I received it a few days ago. I am using it just before I go to bed as a kick off to my Dream Work. The art is exquisite. I am in awe of the artist. And the art and the writing go perfectly together. Not all decks are in such wonderful harmony. If you do deep work, and want to change your life and have encouragement on the way, this deck will take you there. Oh- I forgot! Alana Fairchild also has a Healing Process at the end of every card explanation, and these are full of excellent guidance and descriptive energy work examples for us to do. Very rich, beautiful and wise guidance in this set.

I can't even explain how wonderful this deck is. Between the fantastically creative and beautiful visuals of each and every card... the writing in the oracle book is just phenomenal. I use this deck almost exclusively now for myself. I feel so connected and intimate with this deck that I don't want to use it for others to do readings. I would buy a separate deck of this for that purpose. The readings have been incredibly accurate. The cards a little larger than the typical decks. The booklet is also slightly larger and the box which they come in is a bit larger than typical. It's a hardcase box so it's wonderful at protecting the cards and booklet. The deck itself (to me) has this wonderfully earthy and grounded feeling. It really captures my spirit.

The artwork in the Sacred Rebels Oracle deck is quite beautiful, and many cards have intricate pictures to help get you in tune. The book lists both the meaning of each card, and contains a small ritual to heal you when you are a little "off" in this area. I am not feeling a connection here, but it's not because the cards aren't lovely, or well-created. They are the bee's knees for other people, and oracle cards don't hit everyone the same way. So, I didn't take any stars, and I hope my description

gives you enough objective information that it helps you make a decision.

I have been holding off on purchasing my first oracle deck until now. My friends had this deck and I did one card reading and felt extremely drawn to these. I LOVE THE SPIRIT of these cards as well as the VERY HEARTFELT Artwork and explanations of each card. Each card also has a meditation/Healing to go along with it. I have been working with them for a few weeks now & I am very grateful to the creators of this deck :)

This has become my go-to deck...I love the illustrations and the book is detailed and helpful. I love feeling like I've gotten a complete reading even if I just did a one card pull.

I absolutely LOVE these cards! Can't say enough about them. The images are amazing. The artist's energy comes right through the card and the accompanying guidance is encouraging, insightful and (my experience) on the nose! I'm so into this deck, I gave my first deck away and had to get me another. :)

This was purchased as a gift for a family member and she was absolutely thrilled with it. The artwork and guidebook were beautiful and well-written, and she is already finding a lot of use for it in her work. Thank you for such a lovely Oracle set.
