# Sexual Selection And The Origins Of Human Mating Systems

## Synopsis

Comparative analyses of the anatomy, reproductive physiology, and behaviour of extant primates and other mammals can offer important insights into the origins of human sexual behaviour, allowing us to reconstruct the origins of human mating systems, the evolution of sexual attractiveness, patterns of mate choice, and copulatory behaviour. *Sexual Selection and the Origins of Human Mating Systems* provides a modern synthesis of research on the evolution of human mating systems, bringing together work on reproductive physiology, behavioural biology, anthropology, primatology, palaeontology, evolutionary psychology, and sexological research. The approach taken is genuinely cross-disciplinary in scope, and provides a fascinating account of the effects of sexual selection upon human evolution in the light of the latest advances in the field.

## Book Information

Paperback: 230 pages

Publisher: Oxford University Press; 1 edition (July 15, 2009)

Language: English

ISBN-10: 0199559430

ISBN-13: 978-0199559435

Product Dimensions: 9.6 x 0.5 x 7.4 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

## Customer Reviews

this data-rich book, which takes a unique approach to heavily trodden subjects, should be recommended reading for all those interested in an evidence-based approach to the study of the evolutionary origins of human sexuality. \* Paul L. Vasey and Deanna L. Forrester, *Archives of Sexual Behavior* \* Provides an invaluable analysis of cross-species research. \* *Primate Eye* \*

Alan Dixson was educated in England at the University of Nottingham, where he obtained a BSc in Zoology (1970) and at the University of Birmingham Medical School, where he was awarded a PhD (1973) and a DSc in Biological Sciences (1993). His research has involved comparative studies of

reproductive biology and the evolution of sexuality in primates and in other mammals. He has held posts at the Zoological Society of London (1976-1983), Medical Research Council UK (1983-1999), International Medical Research Centre in Gabon (1989-1992), Sub-Department of Animal Behaviour, University of Cambridge (1993-1998) and was Director of Conservation and Science at the Zoological Society of San Diego in the USA (1999- 2005). He is currently a professor in the School of Biological Sciences at Victoria University of Wellington, in New Zealand. Alan Dixson has authored, or co-authored, more than 140 papers and books.
