Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the

world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Great maps. These are easy to read and follow. Great to have on hand for hikes.

Very detailed, just what I needed!

The Nat Geo maps are fantastic. Probably not zoomed in enough for geocaching, but great for trails and off-trail hiking. It is made of a plastic material that is waterproof and highly rip resistant.

great.

Great Maps, lightweight and easy to pack for hiking.

Great waterproof topographic maps, I use both sets for planning hikes.

It seems pretty comprehensive but then again I am not a hard core hiker, the information was a help though for my wife and I as we were not familiar with the area and were mostly driving around looking at fall colors.
