With their strong characters, imaginative plots, and just the right dose of history or science,it's no wonder kids love Magic Tree House books.

The Magic Treehouse books are truly magic, my 8 year old son loves them and I can't keep up with ordering them. I have purchased 4 at a time and he reads them in days. They are great books and great for his imagination!

This was a simple, yet, a very interesting story that takes Jack and Annie into the Cro-Magnon era of the human race. Both Jack and Annie race against time in order to find the missing third "M",which stands for Mammoth. They receive a bone fragment from the mammoth elephant and return to Frog Creek.

I bought this for my grandson when he was reading these books. When I asked him if he like it he gave me the thumbs up sign. So I guess it was good. I never got around to reading it. I wanted to see what it was about because he begged for this book every time he saw me. It was the last time I held onto a gift just to give for a special event. I realized he could have enjoyed it well before I gave it to him.

As usual, Mary Pope Osborne is awesome. This Magic Tree House series is fabulous for children. I also have been reading them to my grandson when he could not read yet, and he loves them. He now can read them and asked for more of her books, so I reordered two for him which someone borrowed and did not return and the next 8 in her series.

We love the Magic Tree House series!!!!

My son loves these books. He was so, so excited last year when he began reading these chapter books on his own in 1st grade. He (of course) only wants to read them in order. He loves his 'Jack & Annie' books & this one was no different!

This product was another part of the "series" I bought. It made it a joy to read them to my young son

at night. Super value, and quick delivery time. Thanks, Tim C
