Customer Reviews

I purchased this as a Kindle download and there are photos that don't show up/are blacked out, or the photo has a color issue where half of the photo is a purple tint over it and half looks normal. For the price I paid for this publication I expected a better product!

This was a required college course book. Served it's purpose.

perfect

Had to purchase this book for a college class. I love it! It is full of different information and very detailed in a lot of areas. I would highly recommend it for interior design courses in high school or

college. I would also recommend it if you are just wanting to learn more about Interior Design on your own. The pictures are phenomenal!

This book came very quickly and was needed for a class. It is very nicely presented with beautiful pictures. The writing was written so it could be easily understood with many tables and forms to help learn the business. I'm excited to put it into practice.

The book had mold! And I was charged \$179.22 after I returned it! I am a full time student with no job, so they cleaned out my bank account...

VOICEOVER OPTION UNSUPPORTED FOR THIS CONTENT

Glad I was able to rent this book for my Interiors class. This book is quite expensive to buy.
