Underneath It All: Walsh Series #1

Synopsis

Meet Lauren Halsted. It's all the little things - the action plans, the long-kept promises - that started falling apart when my life slipped into controlled chaos. After I fell ass over elbow into Matthew Walsh's arms, I couldn't decide whether I wanted to run screaming or rip his pants off, and most days I wanted a little of both. If I was being honest with myself, it was rip his pants off, ride him like a workhorse, and then run screaming. Meet Matthew Walsh. A rebellious streak ran through Lauren Halsted. It was fierce and unrelentingly beautiful, and she wasn't letting anyone tell her what to do - unless, of course, she was naked. She wasn't looking for me, and I sure as shit wasn't looking for her, but we found each other anyway, and now we were locked in a battle of wills, waiting for the other to blink.

Customer Reviews

Underneath it All (Walsh Series Book 1) Kate Canterbury This book is probably my favorite of the Walsh series so far. I loved the humor that rolls off the pages while Matt and Lauren struggle to find their way. It was supposed to be a one night stand. It ends up being so much more. Their journey to get there is hot, hilarious, sexy, and occasionally sad. The writing is spot on. The interactions between the Walsh siblings are so damn well written, the trauma that is Angus is horrifying and oppressive. Kate draws you in from the very first line and doesn't let you go until the very end, when you put the book down, disbelieving that it's over and yearning for more. This book is so fantastic I have actually read it three times before I realized I haven't written a review. One of my favorite parts in this book is when Lauren is

thinking to herself about the state of her love life or lack thereof just prior to meeting Matthew: *“I have a hand an incredible group of friends, and a number of vibrators powerful enough to chip a tooth if not handled with care. There was no room in my life for men right now, no need to make room.”* There are numerous hidden gems like that one throughout the book. It really is worth the time to read this and get lost in Boston with the hot architect and the naughty school teacher.

First of all let me say that I've read and re read this series a few times. I can't believe that I forgot to review this last year but better late than never I guess. I've been in love with the Walsh family for a long time. I honestly read this one because it was on KU and looked interesting. I was so bored with the typical books in this genre. I would be reading a book & thinking that I'm wasting my time. Then I tried *Underneath it All* and fell in love. I read Patrick's book (#2) & I decided to buy the series so I could keep those lovely, complicated people for myself. Matt & Lauren are a good couple. She is his sweet to his grumpy. Soft to his stoic & hard side. She's just a nice person. The Walsh's are just a complicated bunch. Each book reveals a bit more about each other. What I really love is that KC writes a strong, competent, accomplished & independent woman really well. There will be no damsel in distress in her stories, period. She shows vulnerabilities in both men & women better than any other author I've read before. I'm looking forward to all her future books! Get everything she's ever written. You won't be let down if you do. S. Sowell *“I don't want to be a part of this.”*

Matthew Walsh and Lauren Halsted are way too busy with their careers to have time for anything else. Although Matthew wants to make time for more, like a relationship, Lauren is still very focused on her career responsibilities. These two had sizzling chemistry given that they were not what the other person was looking for at the time. Matthew had a different type and Lauren was waiting for a different time. Matt is always the guy who mediates and tries to be the neutral third party given the craziness of his family life. He's solid, dependable and ambitious. Lauren is also ambitious, along with independent and moving at 90 miles per hour. She keeps her emotions locked tight, but isn't afraid to get lost in some physical escape. I adored how much Matt tried to anchor her down and keep her close despite Lauren's attempts to maintain distance. I thought Lauren had a good reason for this so it was a little anticlimactic to realize that she didn't have some deep seated fear or buried past that kept her from pursuing more, it was simply the chaos of her life, which made it all the more frustrating. I could understand her drive to succeed, but kind of wanted to shake her, too. I was also intrigued by Matt's siblings and look forward to reading more about each of them because there's

still so much to learn about the family dynamics.

I need more. Those were my immediate thoughts as soon as I finished the audio, which I devoured. It normally takes me on average a week to listen to a book, during my commutes. But this book, I would find excuses to go places, or listen to this book instead of reading. The narrators were spot on, and are now in my top favorites - I will be listening to all the books! Matthew was a pure, hot, alpha male. He was completely swoon-worthy for me and it was delicious. I adored how he wanted to swoop in and save the day. His love for his family made my heart pitter pat. The persistence he showed Lauren was perfect, that man wouldn't give up! *swoon* Speaking of Lauren. Ah, dear Lauren.. I loved her. Simple as that. She was small but mighty. She's fierce and independent. So focused on her goals, it was endearing. My only critic was her trying to simplify her relationship with Matthew. I understand why, but it drove me batty. Woman, you have this amazing man. Open your eyes!!! Overall, this was an extremely enjoyable book. I loved the entire family, even Riley. I'm already knee deep into book 2 and can't wait to listen to more!

When I discovered Kate Canterbury and the Walsh's I was hesitant at first because at the time this type of book wasn't in my repertoire. It kept popping up on my newsfeed with teasers and I finally decided what the heck! Best decision EVER! I still don't know why I waited so long to even get this book (this was back in 2014). Crazy I know.. this book started it all! The Walsh Siblings are simply the best! How could you not love these pragmatic, complicated, sarcastic, loving, sexy, dirty mouthed people that love each other more than anything in their world. They all have a stake in the family business and each and every one love what they do. Their father who is an evil s.o.b. He tries to control them but each of them deal with that in their own way. This story is about Matthew, who meets Lauren after she is so persistent to meet Matthew about a special school for children she wants to open. Sparks fly, chemistry rages between these two from the very first. They are simply perfect for each other although they don't know it until their story is told. This book belongs on your keeper shelf whether it's an ebook or the paperback! It's a must read!
